Overview

RCW-600WiFi is a two-channel temperature monitor based on IoT technology. It can be widely used in foodstuffs, catering, logistics and HACCP industries. With a combination of WiFi, Elitech App and Cloud platform, users can remotely view, monitor and manage data online via any web browsers or smart phones.

The wireless monitor equipped with two temperature sensors and a built-in rechargeable lithium battery that can continuously provide real-time data uploading and alarm notifications even after power outages or blackouts.

Features

- ◆ High sensitivity probe, short response time.
- ◆ Keep running up to 6 hours after power supply cut-off.
- ◆ Configurable alarm thresholds. Audio and visual alerts when beyond thresholds.
- ◆ Configurable uploading interval between 1 minute to 24 hours.
- ◆ 20,000 recording points on device, unlimited recording points on the Cloud server.
- ◆ WiFi access points for real-time data collecting and upload to the Cloud platform.
- ◆ Flexible data exporting, can export in multiple formats via the Cloud platform.

Technical Parameters

- ◆ Power supply: 5V/1A(DC)
- ◆ Measurement range: Temperature: -40°C~80°C
- ◆ Accuracy: Temperature: $\pm 0.5^{\circ}\text{C}$ (-20°C~ 40°C); $\pm 1^{\circ}\text{C}$ (others)
- ◆ Temperature resolution: 0.1°C
- ◆ Logging interval: 1 minute to 24 hours
- ◆ Memory capacity: 20,000 recording points
- ◆ Alarm output: LED indicator, buzzer, e-mails, Cloud platform/App push notification etc.
- ◆ Uploading mode: WiFi
- ◆ Battery: 3.7V, 1100mAH rechargeable lithium battery

The front of the device

The back of the device

How to install the sensor

Touch Buttons

 enter the selected menu.

  shift left/right to change the parameter.

  shift up/down to select the desired menu option.

 back to previous windows.

 lock/unlock the screen.

GUID Information

Get device GUID

Step 1: Click Menu button on the device.

Step 2: Move the cursor to '5. ABOUT THIS PRODUCT' by using Up and Down key.

Step 3: Click Menu to confirm this option and view the GUID (20-digit numbers).

WiFi Configuration

Please turn ON the monitor first and follow the setup steps below.

1. Connect to device's network

Use a smart phone or PCs to search and connect corresponding device's WiFi under the name of: '600wif****'.

PCs

Phones

2. Reset

Prick the Reset hole for 5 seconds to reset the device if you want change device's WiFi access.

Keep the device on, prick the Reset hole for 5 seconds to restart the device.

The symbol will shows after reboot.

3. IP address

Type in IP address in any web browser: <http://192.168.2.1/>.

4. Login

Default user name: admin

Default password: admin.

5. Settings

Step 1: Select "STA mode" and click "Next".

Select Mode

Select Mode:

Step 7: Click "Restart".

Saved Successfully!

Configurations will take effect after restart.
After restart, you will need to re-login the configuration interface for other settings, so it is recommended to restart after completing all settings.
Please click [Restart] to restart now, or click [Back] to continue setting. You can restart after all configuration.

Restart back

Step 8: Rebooting Successful! The device is restarted successfully.

Rebooting Successful!

You can choose to manually close the page or reconnect the WIFI module of network and then login to the configuration interface.

Elitech App

1. Download and Login:

Please scan the QR code on the front of the manual or search Elitech on App Store or Google Play to download Elitech app.

Register and login to your account.

The login screen features the Elitech logo at the top. Below it are two input fields: 'Enter username' with a person icon and 'Enter password' with a key icon. A 'Remember password' checkbox is located below the password field. An orange 'Login' button is positioned below the checkbox. At the bottom, there are two links: 'Register now' and 'Forgot password?'.

2. Add Device

Follow the steps below and repeat the procedures in 'WiFi Configuration' to network the devices.

The main screen shows a '+ Device' header with a search bar and a 'Query' button. Below this, device details are listed: 'Device Name: RCW-600WIFI', 'Model: RCW-600WIFI', 'Sensor Data: 1', and 'GUID: 94780240044317*****'. The status 'Online' is shown in the top right. A bottom navigation bar includes icons for 'Device', 'Alarm', 'Project', and 'More'.

① Click "+".

The 'Add Device' screen has a QR code icon in the top right. It contains two input fields: 'Device GUID' and 'Device Name'. An orange 'Add' button is at the bottom. Below the button, a small instruction reads: 'Click the QRcode on top right to automatically scan and add.'

② Click and scan the QR code on the back of the device.

This screen shows the device GUID '2712586328626513****' and a 'Device Name' input field. An orange 'Add' button is at the bottom. Below the button, a small instruction reads: 'Click the QRcode on top right to automatically scan and add.'

③ Click "Add" and the device will be added.

Elitech Cloud

1. Login Cloud Portal

Please type in the URL <http://www.i-elitech.com> to login for more operation. Click 'Help' to obtain Cloud and App operation instructions.

2. Top up SIM card (only for GPRS Version)

If your device is not a Wi-Fi one, please refer to the App Instruction Manual to recharge your SIM card. You may experience it for two month for free.
